VITALIS LEGAL

RISK AUDIT

Vitalis Legal offers a Risk Audit to assess potential legal vulnerabilities in business operations. Our assessment identifies risks across various areas, including contractual, regulatory, and compliance issues. We provide a traffic light report: green for low risk, yellow for moderate concerns, and red for areas needing immediate attention.

This tool helps businesses visualise their risk landscape and prioritise actions. Based on the audit results, we offer mitigation strategies tailored to each client's specific needs. Clients can choose which risks to address and when, allowing for flexible risk management.

YOUR BUSINESS

RISK & POTENTIAL EXPOSURE

CONTRACTS	EMPLOYEES & SAFETY	BUSINESS PREMISES	LEGISLATIVE CONDITIONS	TECHNOLOGY	SUCCESSION	DISPUTES
Inadequately drafted contracts and handshake agreements expose your business to vulnerabilities in trade, employment, and subcontractor engagements.	Workplace safety, employee contracts, and employment practices require stringent management to avoid legal complications.	Securing and managing business premises is essential to protect physical assets and maintain operational stability.	Adapting to legislative changes is crucial to remain compliant with regulations.	Cybersecurity and data management are vital to prevent data breaches and ensure compliance with privacy laws.	Lack of a clear succession plan can disrupt business continuity and expose the business to legal risks.	Unresolved disagreements can escalate quickly, leading to financial and reputational damage.
We review and draft contracts tailored to your business needs, providing clear terms of trade to safeguard your interests.	We assist in drafting robust employment contracts, implementing workplace policies, and ensuring compliance with safety regulations to minimise risks.	Our legal support ensures your business premises are secured through proper agreements, addressing any legal concerns related to leasing, purchasing, or maintaining property.	We provide strategic legal advice to help you navigate legislative changes specific to your sector/ industry and comply with evolving regulations.	We guide you through implementing best practices for data security and privacy, ensuring your business meets legal requirements in the digital age.	We assist with developing and implementing succession plans, protecting your business's future and ensuring a smooth transition.	Our team offers expert dispute resolution services, including mediation and negotiation, to help you manage conflicts efficiently and effectively.
